If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

APPLICATION FOR PATENT ABANDONED UNAVOIDABLY**

Alexandria, VA 22313-1450

Dear Sir:

In reply to Senior Attorney John Gillon's Decision on Applicants' "Petition to Withdraw Holding of Abandonment Based on Failure to Receive Office Action", Petitioner respectfully requests reconsideration.

The docketing documents identified as Exhibit A in Petitioner's Petition filed 5 June 2006 were prepared by our Docket Clerk, Sharon Roberts, and contain docket numbers taken from correspondence received from the USPTO and Foreign Patent Offices. Kindly refer to the attached Declaration of Sharon Roberts which specifies in detail docketing procedures and precautions taken in the handling of documents received from the USPTO and Foreign Patent

Appl. No. 10/654,797
Petition dated August 24, 2006
Reply to Decision of July 24, 2006

Offices. Once a docketed document, corresponding file and Actions Due sheet are delivered to the appropriate attorney's office, the file and attached documents are reviewed by the Attorney's office to confirm that the correct document is with the correct file and that all due dates have been docketed correctly. A separate docket is maintained by each attorney's office and once a month a computerized master docket is generated by the Docket Clerk and delivered to each attorney's office for review to ensure that all due dates are accounted for. A copy of the master docket for the time period 31 August 2004 through 30 November 2004 is attached hereto as Exhibit A. The master docket does not indicate a due date of 12 November 2004 for payment of an issue fee for above application. The master docket does however show a 12 November 2004 due date for payment of issue fee for Serial No. 358,650 (Our Docket No. 5305-A-02) - this case is totally unrelated to the above application and has since issued into a patent (Patent No. 6,830,175).

With regard to Attorney Gillon's comments concerning the entry "3418-A-14 EPO" on the page annotated as 8/17/04 of the docketing documents, this entry is the docket number for a European application belonging to Petitioner which is totally unrelated to the above identified application. The document received for Docket No. 3418-A-14 EPO was a letter from our European associates dated 5 August 2004. The letter was stamped as being received by our office on 16 August 2004 and a copy of the front page of this letter is attached hereto as Exhibit

Appl. No. 10/654,797
Petition dated August 24, 2006
Reply to Decision of July 24, 2006

B. On 17 August 2004 the letter was docketed by our Docket Clerk as indicated by the docket stamp located on the front page of the letter and on the file cover for Docket 3418-A-14 EPO - - a copy of the file cover is attached hereto as Exhibit C. A detailed explanation of the docketing of the 5 August 2004 letter is included in the attached Declaration of Sharon Roberts.

With regard to the application under petition, A Notice Regarding Drawings from the Patent Office dated 4 October 2004 was received on 7 October 2004. The notice indicated that the corrected drawings in the application that were received in the Patent Office on 12 July 2004 were not acceptable. Kindly refer to the Declaration of Ruth Holbrook detailing her telephone conference on 16 November 2004 with Draftsman Steven Fields advising him that the drawings submitted with the response to a Restriction Requirement were for illustrative purposes only. Ruth Holbrook's telephone conference with Draftsman Steven Fields resulted in his approval of the drawings as filed and on 16 November 2004 Draftsman Steven Fields faxed a Notice of Draftsperson's Patent Drawing Review approving the drawings as filed. At this time, it was therefore known that the case was in the hands of the Examiner and the file could not have been lost. An argument transversing a requirement for restriction was also still pending. Since we have several cases that have been pending without an Office Action for periods of time greater than the present case, it was assumed the case was being handled in due course. This assumption was believed accurate when Examiner Nihir Patel left a voice message on January 31, 2006

Appl. No. 10/654,797
Petition dated August 24, 2006
Reply to Decision of July 24, 2006

indicating that the application had been allowed.

Petitioner has reviewed the USPTO Image File Wrapper for the above case which indicates that a Notice of Allowance with a reply due under a non-extendable deadline of 12 November 2004 was mailed to Applicants. The USPTO Image File Wrapper also indicates that the Notice of Allowance dated 11 August 2004 was received back in the USPTO on 26 August 2004. A copy of the returned Notice of Allowance indicating the USPTO date stamp is attached hereto as Exhibit D.

On 31 January 2006 Examiner Nihir Patel left a voice mail message for William Cahill stating that the application had been allowed but that he believed he had the wrong mailing address because paperwork had been returned to the USPTO. This message was forwarded to Ruth Holbrook, assistant to Mr. Cahill, for handling and the attached Declaration of Ruth Holbrook sets forth in detail her return call to Examiner Patel. A copy of our computerized phone record documenting Ruth Holbrook's call to Examiner Patel on 31 January 2006 is attached hereto as Exhibit E.

According to the USPTO Image File Wrapper, the Notice of Allowance was never resent to Applicants. Instead, on 17 May 2006 a Notice of Abandonment was mailed to Applicants again using the incorrect zip code. The Notice of Abandonment was received by Applicants' attorney on 22 May 2006 and on 26 May 2006 Petitioner diligently prepared and forwarded to the

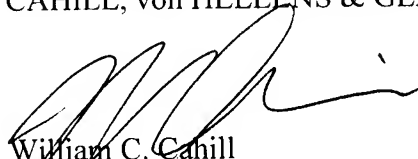

Appl. No. 10/654,797
Petition dated August 24, 2006
Reply to Decision of July 24, 2006

USPTO a Petition to Withdraw Holding of Abandonment Based on Failure to Receive Office
Action.

It is believed that the failure to pay the issue fees was unavoidable since Applicant had been in contact with the Official Draftsman, had responded to a requirement for restriction, had received a telephone call from the Examiner indicating allowance, but the Notice of Allowance was sent to the wrong address and never received by Applicants' attorney as shown by Petitioner's records and the records of the USPTO. In the event the Senior Attorney again dismisses this Petition, Petitioners respectfully request that the separate Petition for Revival under 37 C.F.R. §1.137(b) for unintentional abandonment be considered.

Respectfully submitted,

CAHILL, von HELLENS & GLAZER P.L.C.

DECLARATION OF RUTH HOLBROOK

1. I am assistant to William C. Cahill, the attorney of record in the above identified patent application.

2. On 7 October 2004 a Notice Regarding Drawings dated 4 October 2004 was received from the Patent Office. The notice indicated that the corrected drawings received in the Patent Office on 12 July 2004 were not acceptable. On 16 November 2004 I placed a call to Draftsman Steven Fields advising him that the drawings were submitted with a response to a Restriction Requirement and were for illustrative purposes only. Draftsman Steven Fields asked me if the drawings submitted at the time of filing the application were correct - - I confirmed that the drawings were correct and on 16 November 2004 Draftsman Steven Fields faxed a Notice of Draftsperson's Patent Drawing Review approving the drawings as filed.

3. On 31 January 2006 Examiner Nihir Patel left a voice mail message for William Cahill stating that the application had been allowed but that he believed he had the wrong mailing address because paperwork had been returned to the USPTO. This message was forwarded to me for handling. I reviewed past correspondence received from the USPTO for the

above application and concluded that the USPTO had been using the wrong zip code (85018 rather than 85016, as stated in the application documents that were filed), but that even with the wrong zip code all previous correspondence from the USPTO was received without delay. On 31 January 2006 I returned Examiner Patel's call to the phone number left by Examiner Patel in his voice mail (571/272-4803) - - there was no answer at this number and I was put through to the voice mail for extension 24803. I left a voice mail message for Examiner Patel indicating that the USPTO had been forwarding mail to zip code 85018 and rather than 85016 and that perhaps this was reason the Notice of Allowance was returned to the USPTO - - I then left my phone number should Examiner Patel need to call me back. Examiner Patel did not return my call. I therefore expected to receive a new Notice of Allowance. A copy of the phone record documenting my telephone call is attached as Exhibit E of the Renewed Petition.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine and imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this declaration is directed.

DECLARATION OF SHARON ROBERTS

1. I am the Docket Clerk for the firm Cahill, von Hellens & Glazer, P.L.C., the attorneys of record for the above identified patent application.
2. The docketing documents identified as Exhibit A attached to the "Petition to Withdraw Holding of Abandonment on Failure to Receive Office Action" filed in the United States Patent & Trademark Office on 5 June 2006 were prepared by me and contain lists of docket numbers taken from documents received from the USPTO and Foreign Patent Offices.
3. Docketing procedures performed by me once I have prepared a list of docket numbers include pulling the files and matching the documents with the appropriate files by verifying the serial/patent number on the document with that shown on the front cover of the file. The document is then entered on the cover of the file and into our computerized docketing system. An "Actions Due" sheet is generated from the computer indicating the required action, due date, docket number, serial/patent number and Country. I apply a docket stamp to the front page of the received document and enter the date the document was docketed by me along with my initials. I then deliver the docketed document, corresponding file and Actions Due sheet to

the appropriate attorney's office.

4. On 17 August 2004 I prepared a list of docket numbers from documents received from the USPTO and foreign associates. This list was included in Exhibit A attached to the Petition filed 5 June 2006. An entry was made for Docket No. 3418-A-14 EPO from correspondence received from our European associates dated 5 August 2004. The front page of the correspondence was date stamped by the firm on 16 August 2004 and forwarded to me for docketing. On 17 August 2004 I docketed the correspondence according to the docketing procedures described in detail above in Paragraph 3.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine and imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this declaration is directed.
